M 1 The Ultimate Quiz Challenge – rules sheet

Things to prepare

- Get into groups of four.
- Each player needs one **token** and one **coin**. The token is used for the **game board** and the coin for the answer card.
- Everyone takes an **answer card** and puts it in front of him/her.
- Shuffle all the **question cards**. Place them face down in a stack on the game board.
- You will need a **stopwatch**. Ask your teacher if you can use your smartphones.

How to play

1. All pupils place their tokens on the first field of the game board.
2. The youngest player is the quizmaster for the first round. He/She takes the first quiz card from the stack.
3. Then, the quizmaster reads out the question with all possible answers and places the card in the middle so that everybody in the group can see it clearly.
4. Now the countdown starts. The players have up to 30 seconds to choose the right answer A, B, C or D by placing their coin on their answer card. Players should be careful that nobody sees their answer!
5. As soon as the round is over, the quizmaster checks who is right by comparing with the answer key.
6. The players who have answered correctly move their token to the next field on the game board. The ones who have given an incorrect answer stay where they are.
7. In the second round, the next pupil in a clockwise direction becomes the quizmaster. The game continues in the same way.

The end of the game

The first pupil who reaches the last field wins the game.
